Union Gas contributes to Lake Laurentian Conservation Area

SUDBURY – **Union Gas** will continue its commitment to improving the trail system at the Lake Laurentian Conservation Area (LLCA) through a \$3,000 grant to be presented to the **Friends of Lake Laurentian** this **Friday, October 28 at 1 PM.**

Marc Tonelli, Union Gas utility services manager for Sudbury West will make a presentation to **Sheilah Arena**, a long-time volunteer and member of the Friends of Lake Laurentian (FLL). She will be joined by Conservation Sudbury's Chairperson **Lin Gibson**, Friends of Lake Laurentian (FLL) Steering Committee Chair **Mark Signoretti**, and **Peter Edmunds**, the newly appointed Chairperson the Nickel District Conservation Foundation (NDCF).

Media and visitors are asked to attend the presentation to be held on the trail near the BioSki Cottage located at [2420 South Bay Road](#).

Conservation Sudbury and its network of volunteers and supporters known as the *Friends of Lake Laurentian* are grateful for the ongoing generous participation of Union Gas. In 2015, Union Gas contributions earned it the marquee sponsorship on the main entrance sign to the LLCA, kicking off the campaign that continues today. Union Gas employees are also involved in contributing volunteer hours to helping improve and maintain the trails at LLCA.

"Union Gas cares about the environment. Our caring nature is reflected in our company culture, whether we are building a pipeline or erecting a new energy-efficient office building," said Marc Tonelli, Union Gas utility services manager for Sudbury. "That's why we support important environmental programs in the communities we serve. We are pleased to continue our support of Conservation Sudbury so users can continue to take advantage of these fantastic local trails."

The trails system at the LLCA is used extensively by hikers, naturalists, runners, cyclists, snowshoers and skiers. Portions of the system are designated as Trans-Canada Trail.
